

FM 60 C

FEATURES

- Static sand recovery unit
- One chassis
- Centrifugal slurry pump
- Hydrocyclone
- Collection tank
- 8 X 4 dewatering screen
- Produce one grade of sand
- Designed to work in conjunction with the Terex Washing Systems Range

WORKS FOR YOU.™

FEATURES AND ADVANTAGES

- Underflow rubber lined slurry pump
- One rubber lined hydrocyclone which classifies at approximately 75µm (200 mesh)
- Self regulating cyclone tank complete with built in float system and anti-turbulence sections
- High frequency 2.4m x 1.2m (8' x 4') dewatering screen fitted with polyurethane modular mats
- Maximum recovery of material above 75µm (200 mesh)
- Removes silt, slimes and clays below 75µm (200 mesh)
- Removes water following dewatering operation to 10–15% of residual water content
- Major reduction in saleable material discharging to the pond, thus reducing pond maintenance and saving money
- Heavy-duty robust construction ideal for rugged operating environment
- Low maintenance
- All wear areas rubber lined
- Walkway and access ladder
- Quick assembly time
- Broken down into one 40' container for transport
- Approx 40-60 tph

APPLICATIONS

- All forms of concrete, mortar and asphalt sands
- Quarry dust / crushed fines
- Lake and beach sands
- Silica sand for glass industry
- Golf course sands
- Filter bed sands
- Recycled materials
- Iron ore
- Most materials which need to be washed

OPTIONS

- Boiler box for dry feed
- Electrical control panel
- Spraybars on dewatering screens

SPECIFICATIONS

TECHNICAL DIMENSIONS

WORKING LENGTH	5.55m (18'2")
WORKING WIDTH (INC WALKWAY)	2.70m (8'9")
WORKING HEIGHT	5.80m (19')
FEED HEIGHT	1.77m (5'6")
PRODUCT DISCHARGE HEIGHT	1.30m (4'2")
WASTE WATER DISCHARGE	2.40m (7' 10")
OVERFLOW DISCHARGE	1.50m (5')
TOTAL WEIGHT (EMPTY)	5500kg (12500lb)
TOTAL WEIGHT (WORKING)	12500kg (27600lb)

CYCLONE

One G4 500 hydrocyclone

Spigot discharge

All wear areas rubber lined

Underflow collection box

Pressure flange with pressure gauge and protector

150mm (6") rubber lined slurry delivery hose

Rubber lined sealed slurry transfer pipe complete with heavy duty clamps

Rubber lined spigot

Full width underflow distribution box giving even feed to the screen

CENTRIFUGAL PUMP

Size 150/125mm (heavy duty rubber lined)

Motor 18.5kW (25hp) (ip55 enclosure)

Pump capacity 190m³

Max working pressure 6 bar

Abrasion resistant liners

Moulded rubber impeller

Excellent serviceability

Pump drain for cold climate applications

Easy access for ease of maintenance

Fully rubber lined for increased wear life

DEWATERING SCREEN

Size 2.4m x 1.2m (8' x 4')

Vibratory motors 3kW (4hp)(2off) 960rpm

Screen aperture 0.5mm

Exceptional dewatering performance

Modular screen decks

Side protection liners

Rubber lined discharge chute

0.5mm panels fitted to screen

Rubber lined chute

Low noise vibrating motor

CHASSIS

Self regulating cyclone tank complete with built in float system

Build in anti-turbulence sections

Heavy duty steel construction

Easy access to serviceable areas

Access steps and walkway for ease of maintenance

Integrated tank drains for ease of maintenance

Access steps and walkway for ease of maintenance.

Float system for self regulation of tank water level
