

## **WARRANTY CARD ON VEI PRODUCTS**

The VEI Helper X & Millennium 5 with or without printer are covered with a limited warranty of 3 years against defective parts only. This is valid from the date of installation.

When you have a problem, contact your local RMT Master Distributor.  
RMT will fix or replace the broken part at no charge under the warranty period.  
Service fees for an onsite technician are not covered by RMT warranty.

The warranty is void if the product has not been installed as per RMT procedure or if it has been modified without RMT or VEI certification. Other damages resulting from earthquake, lightning, act of God, vandalism or other external causes will void this warranty automatically.
